

FAIJAN ANWAR

Software Developer | Full Stack Web Development

Jaipur, Rajasthan, India | +91 70147 02263 | faizan244244@gmail.com | faijan.in | linkedin.com/in/faijan-anwar | github.com/faijan-anwar

PROFESSIONAL SUMMARY

Software Developer with strong knowledge of software development fundamentals and hands-on experience building web applications. Proficient in JavaScript with good knowledge of Java and Python, along with React.js, Node.js, Express.js, RESTful APIs, and MongoDB. Familiar with relational databases such as MySQL and PostgreSQL, third-party API integration, Git, application security, and performance optimization. Strong problem-solving mindset with an ability to learn new technologies quickly and contribute effectively to software development projects.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript (ES6+), TypeScript, C, C++

Front-End: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Back-End: Node.js, Express.js, RESTful APIs, Microservices Architecture

Databases: MySQL, PostgreSQL, MongoDB, Supabase

Core Fundamentals: Data Structures & Algorithms, DBMS, Operating Systems, OOP, SDLC, Agile/Scrum

Tools & Practices: Git, GitHub, Postman, Code Review, Unit/API Testing, CI/CD (Vercel, Render), GCP

EXPERIENCE

Full Stack Engineer — *Global IT Providers, Jaipur*

May 2026 – August

- Contribute to end-to-end web development projects, integrating REST APIs and third-party services while following clean architecture and coding best practices under senior developer review.
- Build modular components and support database integration, debugging, and performance optimization.
- Take part in code reviews, incorporating feedback to continuously improve code quality and development standards.

PROJECTS

DevBlog Platform | *React, TypeScript, Node.js, Express.js, PostgreSQL*

- Developed a full-stack blogging platform with role-based authentication and a modular, testable REST API architecture.
- Implemented schema validation and relational data modeling, then deployed to production with a live demo.

SecureVault — Encrypted Notes Platform | *React, Node.js, Express, MongoDB, JWT*

- Built a secure notes application with authentication, encrypted storage, and a per-user file upload pipeline.
- Deployed front-end and back-end separately in a production configuration, handling integration, debugging, and performance tuning end-to-end.

EDUCATION

Master of Computer Applications (MCA), Computer Science — *Poornima University, Jaipur*

2025 – 2027

- Relevant coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Software Engineering.

Bachelor's Degree — *Maharaja Surajmal Brij University (MSBU)*

2022 – 2025

CERTIFICATIONS

- API Security on Google Cloud's Apigee API Platform — Google Cloud
- Google Cloud Computing Foundations: Cloud Computing Fundamentals — Google Cloud
- Red Hat System Administration I (RH124) — Red Hat
